

JANUARY 20-22, 2017
NEW YORK CITY
DARBY, PA
KATHMANDU, NEPAL
PERTH, AUSTRALIA

PARTICIPANTS, VOLUNTEERS, & SPONSORS WANTED!

The **INTERNATIONAL BACK-TO-SCHOOL CODE-A-THON** is a 48-hour event during which students learn how to code a website, custom application, or mobile app using HTML5 and Azure, Microsoft's cloud computing platform. Students will talk to students on the other side of the world and gain valuable skills that can be taken outside the classroom and aid them in entering the workforce.

Along with simultaneous events at other worldwide locations, the Code-A-Thon will take place locally at Penn Wood Middle School. The registration fee is \$20 and includes snacks, prizes, food and lodging – just bring your sleeping bag!

Open to ALL STUDENTS in grades 9 through 12 residing in the William Penn School District. Whether you're a novice or expert programmer, or just want to build your own website or application, this event is for you! All skill sets are welcomed.

Registration and \$20 fee due December 15, 2016.

Space is limited! Register today at creatingsteam.org/codeathon.

Registered attendees are required to attend a pre-event meeting at a date to be announced.

This event is made possible by WE CONNECT THE DOTS,
the PENN WOOD FOUNDATION, and the WILLIAM PENN SCHOOL DISTRICT.
